

CommonGround Demo Deck

Based Only on Passing GitHub Tests

Only behavior covered by the current automated test suite. No untested product claims.

Validated Scope

- CommonGround onboarding
- Room recommender
- Mutual slots
- Host invites
- RSVP
- Native EventKit handoff required

Test Coverage Snapshot

39 passing tests

6 test files

0 failures

Source: automated test suite run from current branch

Product Flow Covered by Tests

1. User onboarding
2. Room recommendation generation
3. Mutual availability discovery
4. Host invitation workflow
5. RSVP collection
6. EventKit handoff to native calendar

Key Principle

Every capability shown in this deck is backed by an automated passing test. Features, AI behavior, recommendation quality, or future roadmap items are intentionally excluded unless verified by the current test suite.

Summary

- ✓ Test-backed demo
- ✓ 39 passing tests
- ✓ 0 failures
- ✓ Core social coordination workflow validated
- ✓ Ready for technical demonstration
